Driveline

CR00-67661 (CAD Rendering)
Carrier Bearing Assembly, Self-Aligning

CR00-67661 Carrier Bearing

Leading the way in driveline innovation.

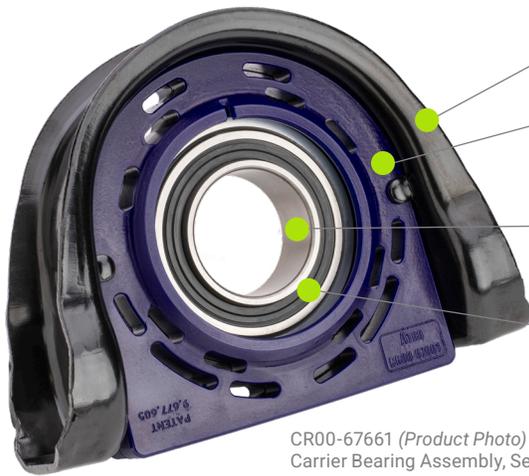

Our Self-Aligning Carrier Bearing with a range of +/- 10 degrees reduces the need for shims and precision adjustments.

- ATRO polyurethanes are 3-5 times stronger than rubber.
- Resistant to oils, grease, road salt, and other chemicals.
- Specific compounds optimize the performance of each part.

Unrivalled articulation for smooth operations.

The self-aligning feature saves valuable time.

CR00-67661 (Product Photo)
Carrier Bearing Assembly, Self-Aligning

Durability and strength.

- Heavy-duty 7-gauge steel housing.

Polyurethane advantages.

- Absorbs vibration and reduces driveline stress.
- Won't degrade when exposed to chemicals and weather.

Patented pivoting bearing.

- Range of +/- 10 degrees of articulation.
- Sealed to retain lubricant and prevent contamination.

Easier installation.

- Self-aligning feature—no need to shim.
- Saves time and cost on every install.

CR00-67661

Carrier Bearing, Self-Aligning, 1810 Series

Assembly Dimensions:

LG: 10"

WD: 3 3/4"

H: 7 5/8"

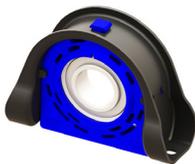

Bearing Dimensions:

ID: 60mm

H: 3 3/8" center

BOLT: 1/2", 8 5/8" c-c

Spicer: 5003323

NEW! CR00-67661-CP

Carrier Bearing, Self-Aligning (Complete Pallet)

Assembly Dimensions:

LG: 10"

WD: 3 3/4"

H: 7 5/8"

Bearing Dimensions:

ID: 60mm

H: 3 3/8" center

BOLT: 1/2", 8 5/8" c-c

Contains:

(108) CR00-67661

Spicer: 5003323

Complete Pallet (108pcs)

CR00-67121

Carrier Bearing Assembly, Series 1710

Assembly Dimensions:

LG: 9 1/4"

WD: 2 1/4"

H: 6 5/16"

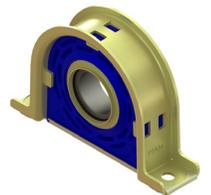

Bearing Dimensions:

ID: 50mm

H: 2 25/32" center

BOLT: 1/2", 7 5/8" c-c

Spicer: 210121-1X

NEW! CM59-61353

Cab Mount, Lower; Kenworth

ID: Ø.650"
OD: Large Ø3"
 Small Ø1.024"
H: 3.44"
 Use with CM59-61911

Kenworth: K066-435-3

NEW! CM59-61900

Cab Mount Kit

Contains:
 (2) CM59-61911
 (2) CM59-61353
 (2) M20-2.50 Lock Nuts

Kenworth: 26509-11,
 K066-435-3, L13-1007

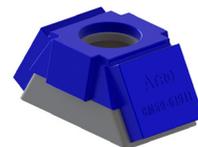

NEW! CM59-61911

Cab Mount; Kenworth

ID: Ø1.36"
LG: 4.94"
WD: 3.30"
H: 2.20"
 Use with CM59-61353

Kenworth: K066-435-3

CM75-61055

Cab Mount

ID: 1/2"
OD: Large 3 3/8"
 Small 2 1/4"
H: 2 3/4"

Peterbilt: 170-55

NEW! CM75-61055-HT

Cab Mount (High Temp)

ID: 1/2"
OD: Large 3 3/8"
 Small 2 1/4"
H: 2 3/4"

Peterbilt: 170-55

KT75-61257

Cab/Sleeper Mount Kit

ID: 21/32"
OD: Large 3" Bushing
 Small 1 13/16" Nipple
H: 1 1/8" Bushing

Contains:
 (2) CM75-61257
 (2) Flat Washers
 (1) 16MM Nut
 (1) Inner Sleeve
 (1) 16MM Bolt

Peterbilt: 20-08867

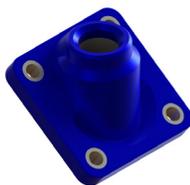

NEW! MS59-69014

Steering Shaft Isolator

ID: 1
BOLT: Holes 2.6" C-C

Kenworth: R13-1014

PL1009-HT

Cab/Engine Mount, HT

ID: 5/8"
OD: Large 3"
 Small 1 13/16"
LG: 2.0" Sleeve
H: 2 7/16"

Kenworth: K066-176,
 M600
Peterbilt: 05-14794

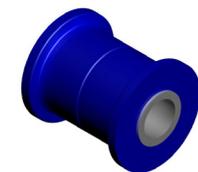

TH75-69000

Lateral Control Sleeper Rod Bushing

ID: 5/8"
OD: Large 1 3/4"
 Small 1 3/8"
LG: 2" Sleeve

Peterbilt: 29-05704

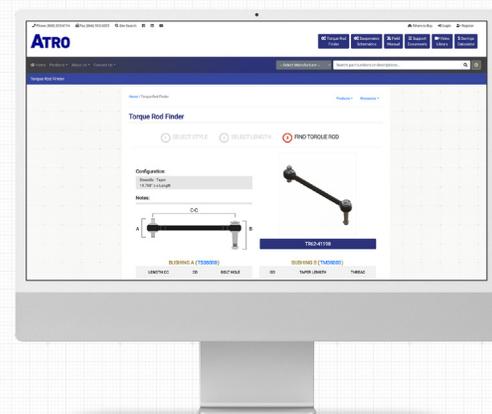

TH75-69000-HT High Temp Part is recommended for 2007 and later model year trucks

ATRO Part #	Part Description	Cross Reference
CM75-61257	Cab/Sleeper Mount	20-08257
PL1016	Cab Mount (Rear)	K066-336, M602-70NR, R13-1011
PL1068	Cab Mount	66D608, J5950, K066-178
TH75-69000-HT	Lateral Control Sleeper Rod Bushing-High Temp	29-05704

ATRO Torque Rod Finder

Find the Torque Rods in 3 easy steps.

ATRO has compiled a master database to simplify and expedite the process of finding replacement rods. Shorten the time at the counter and confirm the right part for your customer.

Hood Latches

Hood Components

Unmatched durability and performance.

Designed and engineered with our custom polyurethane formulas for unmatched durability and performance. Built tough for heavy-duty trucks, they won't degrade when exposed to chemicals and weather.

HM75-64001 (CAD Rendering)
Hood Pivot Bushing Kit

The ATRO Difference—material, function, and design.

We build parts tough for the heavy-duty industry.

HL00-64003 (CAD Rendering)
Hood Latch Kit

Full line of hood components.

- Includes hood latches and hood latch assemblies, mounting bushings, stops, guides, bumpers, insulators, supports, brackets, pivot bushings, hinge bushings, and rollers.

Durability and strength.

- Heavy-duty construction.
- Poly won't degrade when exposed to chemicals and weather.
- Designed for optimal performance and continuous use on trucks.

Industry best warranty.

- You can trust ATRO Parts to perform better and last longer.

HL00-64003

Hood Latch Kit

Contains:

- (1) HL00-64001
- (1) HL00-64002
- (1) Bracket
- (1) Bolt
- (1) Nut

PACCAR: 63011005,
63011005A, L56-0001

Peterbilt: 161037 Latch Only, 23-13857

Engine Mounts

High-Temp Parts

Heat resistance and superior performance.

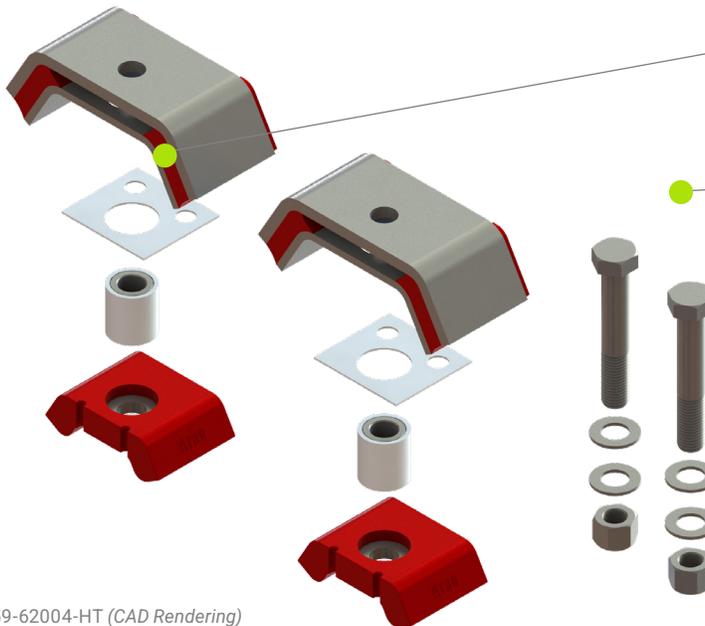

ATRO High-Temp parts have unmatched heat resistance with our custom poly formula that won't degrade when exposed to chemicals, weather, or the hostile engine environment that breaks down rubber parts.

MM75-62002-HT (CAD Rendering)
Engine Mount Kit, High Temp, Front

Choose ATRO High-Temp Parts for durability in extreme conditions.

When it comes to extreme heat, ATRO can take it.

KT59-62004-HT (CAD Rendering)
Engine Mount Kit w/Hardware, Rear (High Temp)

Polyurethane advantages.

- Our custom poly formula is crafted to withstand high heat, maintain its form, and reduce vibration.

Available in kits.

- Get everything in one box.
- Save time and cost with every install.
- No need to piece together individual components.
- Most kits include new fasteners for proper torque and a quality repair.

Industry best warranty.

- Our confidence in our products means you can trust ATRO Parts to perform better and last longer.

KT59-62003-HT

Engine Mount Kit, Front w/Hdwr (set of 2) (High Temp)

ID: 13/16"
OD: Large 3 1/4"
Small 2"
H: 1 3/16" Upper,
1/2" Lower

Contains:
(2) Upper Mounts
(2) Lower Mounts
(2) Bolts
(2) Nuts
(4) Washers

Kenworth: K066-404, K066-406, K066-423
K066-405

KT59-62004-HT

Engine Mount Kit w/Hardware, Rear (High Temp)

Contains:
(2) Upper Mounts
(2) Lower Mounts
(2) Wear Plates
(2) Wear Sleeves
(2) Bolts 20mm x 120mm
(4) Flat Washers
(2) Locknuts

Spring Pins Spring Pin Bushings

Precision. Durability. Reliability.

ATRO's new line of Spring Pins and Spring Pin Bushings delivers the precision and durability you expect from an industry leader. Made with American-produced steel and precision-machined, these parts are engineered to outperform and extend the life of your suspension.

ATRO Spring Pins and Spring Pin Bushings

Engineered for Superior Performance and Durability

Five reasons to choose ATRO Spring Pins and Bushings.

1. Made in the USA with Hardened Steel

Crafted from American-produced steel and built for maximum strength and durability in demanding conditions.

2. Made for Heavy-Duty Trucks

Engineered to withstand the rigors of continuous driving, cornering, and heavy loads.

3. Spiral Grooves Deliver Maximum Lubrication

The grease grooves reduce wear and binding, and keep the leaf spring functioning at peak performance.

4. Matched Fit on Threaded Pins and Bushings*

Both parts are machined in the same facility for quality, consistency, and better results on the suspension.

5. Precision Machined for a Better Fit

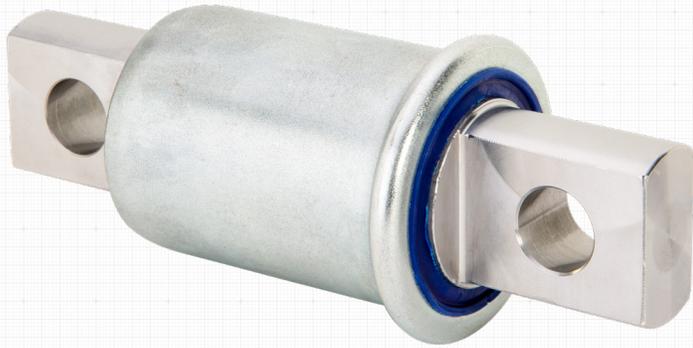

Precision machined and ground pins help ensure a better fit and smooth installation every time.

*Advantages of Threaded Pins and Bushings

1. Easier installation and replacement.
2. Will not shift side-to-side when worn.
3. Increased surface area and grease retention.
4. Longer service life for the pin and bushing.

Rear Suspension

PB46-26268 Pivot Bushing (Anti-Walk)

PB46-26268 Pivot Bushing

It's a more durable and reliable solution.

The PB46-26268 Pivot Bushing solves the problems of spring eye wear and bushing displacement.

The rotating pin and inbound flange prevent the bushing from wearing itself loose in the spring eye for a more durable and reliable solution.

Keep your suspension strong and say goodbye to spring eye wear.

Common problems with rubber bushings:

Problem 1: Spring Eye Wear

- During braking and acceleration, the drive axles rotate, causing rubber bushings to rotate within the leaf spring eye, resulting in wear that makes the bushing loose.

Problem 2: Bushing Displacement

- Over time, rubber bushings shift, or "walk," out of the spring eye towards the outside of the truck, compromising the stability and safety of the suspension system.

The ATRO PB46-26268 solution.

PB46-26268 Pivot Bushing (Anti-Walk)

Rotating Pin

- The pin rotates instead of the bushing
- Effectively eliminates spring eye wear

Inbound Flange

- Keeps the bushing securely in place
- Prevents shift, or "walk," out of the spring eye

Additional Benefits

- ATRO polyurethane is resistant to weather and chemicals and is 3-5 times stronger than rubber.
- Backed by the industry's best warranty
- Available in bulk as a complete pallet shipment (264 pcs).

Steer King

High performance kits with the industry's best warranties.

Premium No-Ream King Pin Repair Kits

Steer King offers a specialized solution for heavy duty truck maintenance with a focus on quality, efficiency, and customer support. Our no-ream king pin repair kits stand out in the market for their ease of installation and long-lasting performance, providing significant value to our customers.

We've engineered these industry-leading features into every king pin kit so every mechanic can get a great result and a fast, easy installation.

1. Kit Box and Tray

The best box in the business keeps getting better.

2. Bi-Directional Lip Seals

Lip seals install fast—in either direction.

3. Pre-Packed* Bearings

Saves you the effort—and 10-20 minutes per install.

4. Grease Grooves On All King Pins

Optimize lubrication on the king pin assembly.

5. Spare Parts

High quality spares keep you up and running.

6. Industry Best Warranties

4 Year (Spiral kits) and 2 Year (Bronze kits).

Torque Rods & Bushings

ATRO Torque Rods

ATRO leads the industry with the most durable torque rods that outperform traditional rubber products.

Our torque rods with rotating pins and polyurethane bushings are easy to install and adjust to any clocking angle. They prevent failures due to bushing wind-up, bushing walk-out, and other common failure points of bonded rubber bushings.

The ATRO Advantage—Superior Torque Rod Technology

Pro tip: use our website Torque Rod Finder to quickly find the torque rod you need.

Save Time and Cost

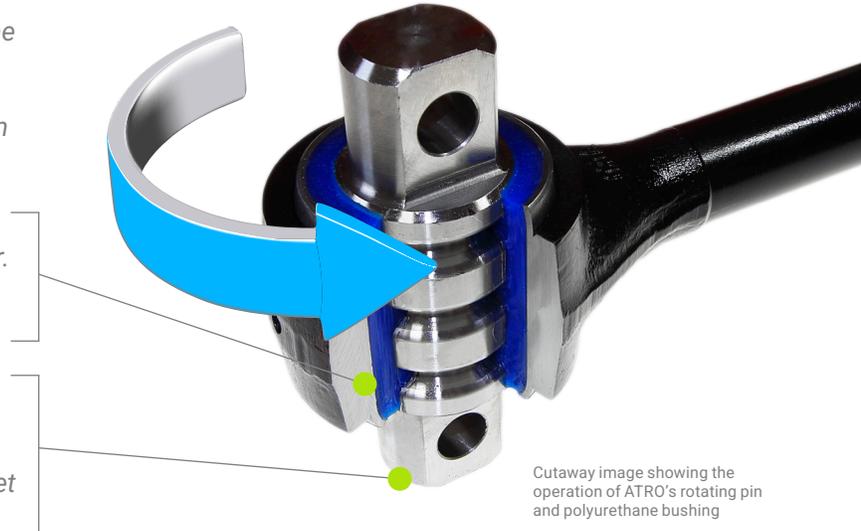

- You won't need to stock as many part numbers because one ATRO part number fits many clocking angles.
- Fewer part numbers mean lower inventory costs.
- Stronger, more durable torque rods improve the suspension system, reduce repair costs, and keep trucks working.

Polyurethane Bushings

- They won't degrade when exposed to chemicals or weather.
- Eliminate dry-out and bushing wind-up (the #1 cause of torque rod failures with bonded rubber bushings).

360 Degree Rotating Pins

- Rotating pins make installation faster and easier with no need to adjust for specific clocking angles.
- Rotating pins automatically zero out to the manufacturer-set ride height to ensure the best suspension performance.
