NEWAY AD SUSPENSIONS

TRUCK AND TRACTOR SUSPENSIONS

Neway AD Series Truck and Tractor

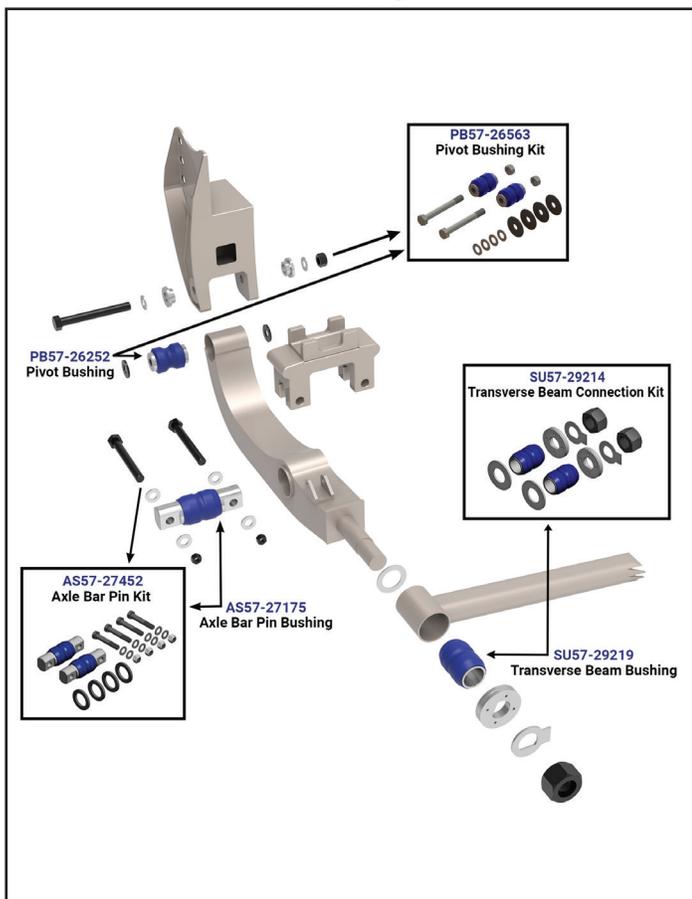

Approved for 100% off-highway application.

One suspension design for single, tandem, and tridem configurations. Each axle is independently suspended for optimum performance. Parallelogram design reduces driveline wear and vibration by maintaining a constant pinion angle. Eliminates tire hop and provides superior traction.

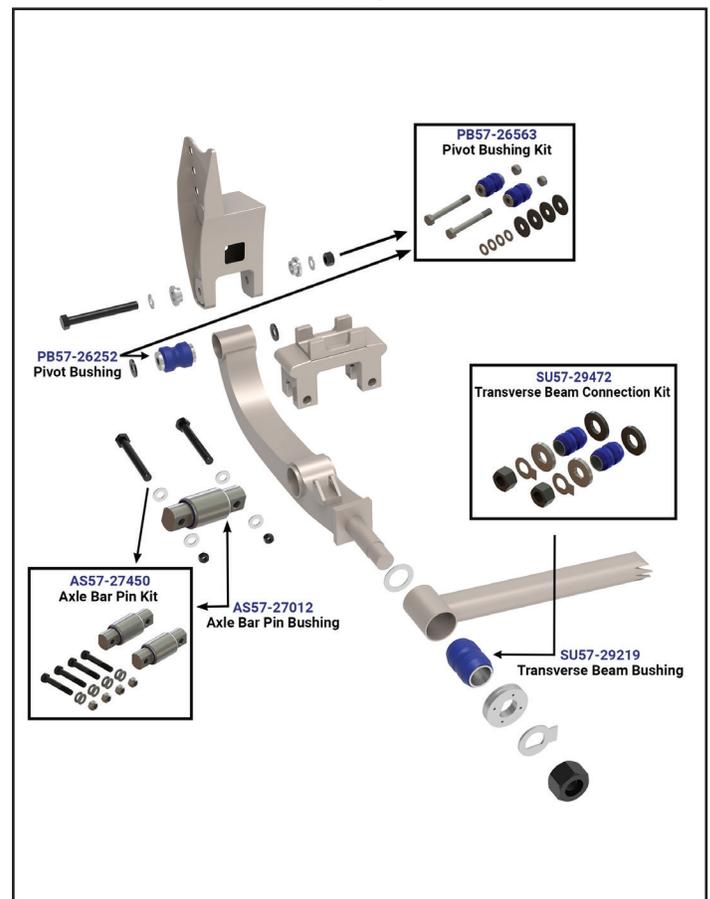

Predictable roll stiffness for high CG loads, like front and rear discharge mixers. Run flat capable at reduced speeds. Air spring change-out is quick and easy.

APPLICATIONS: Construction, Logging, Refuse, Fire Apparatus, and Heavy Haul
